Khemistry's Kosmik Healthy Hair Ritual

If you are looking for a Healthy Hair Regimen and need something easy to do, this is the routine for you. You just need quality ingredients of **Khemistry Kosmetiks** and a little time on your hands.

To begin, wash hair with **Khemistry Liquid Gold Black Soap: Tea Tree for dry, itchy scalp or Lavender** for sensitive scalp . This is an excellent shampoo because it does not strip the hair of its natural oils. After shampooing, towel dry. Then, grab a wide toothed comb and part your hair in medium-sized sections, one section at a time saturate the hair with **Viva Hair Konditioner** with comb or fingers work the product through the hair. Leave conditioner on hair for 10-15 minutes and rinse out thoroughly.

Another option is do a hot oil treatment with **Sage Hair and Scalp Oil** as a moisturizer and to stimulate hair growth. This can be done monthly. This is a pure blend of jojoba, olive, and sweet almond oils.

Sage Hot Oil Scalp Treatment

Step 1: Add six tablespoons of **Sage Hair and Scalp Oil** in a plastic bottle in a sauce pan filled with water.

Step 2: Stir thoroughly. Place the container in the sauce pan and heat until warm.

Step 3: Once the **Sage Hair and Scalp Oil** is heated to a comfortable temperature, let it set for a few minutes. Place some of the oily mixture onto your hands (don't pour directly onto your hair) and start applying it carefully to the hair starting at the ends and working up to the scalp.

Step 4: Once the mixture has been applied, wrap your hair in a warm towel and leave on for 30 minutes.

Step 5: After 30 minutes, wash the mixture out of your hair and follow up with a **Tea Tree Liquid Gold Black Soap** designed for dry hair.

For dry, brittle hair use **Koka Mint Hair Balm**. Make sure you work the balm through the hair from the scalp all the way to the ends. The **Sage Oil** is free of mineral oil which can suffocate the hair and clog the pores of the scalp. Furthermore, many people believe mineral oil dries the hair out. Oilier, wavy hair types may use the **NatuRaw Styling Gel** as an emollient and non greasy no frizz agent to healthy hair.

For Twists Styles

Make sure you hair is clean. After have parted a section, grab it and put a little bit of the **NatuRaw Styling Gel** through it. Take the section and split it in two with your hands. Take the two sections and twist them around each other using a good amount of tension. Twist all the way to the end of the section, and proceed to the next section and repeat the same steps.

Your sections shouldn't be too small. This is a hairstyle that should take you no more than twenty minutes to do if you don't have to wash your hair. Once you have a good amount of nice sized twists, allow them to air dry a bit before you put a silk scarf on. Doing this will decrease frizz. After letting the hair air dry, tie silk or satin scarf on and go to bed. You may also set the twists by sitting under the dryer for about an hour if you have the time. After a good six to eight hours of air drying, untwist gently, finger style, and go.

Khemistry Kosmik Body Healing Treatments

We suggest a few of our signature treatments offered at Kosmik Kare Day Spa to use with the Khemistry Kosmetiks products. These are perfect spa treatments for Girls Night In, spa parties, salon/ spa services, or just for your daily and weekly beauty regimens.

Honey Exfoliating Body Glow Treatment

Step 1: Pour 3 tablespoons of **Milk N Honey Body Scrub** into your hands. Make sure your honey is at room temperature because it will be easier to work with or heat to a comfortable temperature for deeper penetration into the skin .

Step 2: Spread the **Milk N Honey** on your body, gently massaging it into the skin. Start with your feet and work up toward the heart.

Step 3: Allow the **Milk N Honey Body Scrub** to sit on your body for about five minutes. It will draw the blood to the surface of your skin. Your skin should feel a slight warm sensation.

Step 4: Scrub. With a moist hand, rub the **Milk N Honey Body Scrub** into your skin in small circular motions. This can be complimented with a loofah sponge to get a more aggressive exfoliation.

Step 5: Rinse. The **Milk N Honey Body Scrub** is easiest to remove in the shower. Stand under the shower and let the warm water dissolve the scrub from your body. Be sure to rinse thoroughly, especially near the hairline.

Step 6: Follow Scrub with your choice of the **Khemistry Kosmetiks Body M.A.S.S. Lotions** for a body moisturizer. Available Scents: **Nag Champa, Lavender, Sandalwood, or Lemongrass.** Massage in to the skin. Ahh!!!
